**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Response to Arguments*

1. Applicant's arguments filed 12/29/03 have been fully considered but they are not persuasive. Applicants have argued that adequate support exists for the phrase "*and one to four inclusive non-chelating ligands*".

Applicants suggest that the listed claimed alkyl phosphines are non-chelating ligands. Applicants put in parentheses (i.e. non-chelating) apparently as being equivalent to "monodentate". It is not clear from the specification that these two terms are equivalent. The examiner respectfully suggests that applicant use the term monodentate.

Applicants further add that in the specification where it states "*alkyl phosphines are chelating ligands*"<sup>1</sup>, that this is really referring to substituted alkyl phosphines. This is simply not well founded. Applicants have an obligation to provide a clear and precise adequate written description. The phrase "*alkyl phosphines are chelating ligand*" clearly suggests that both substituted and non-substitute alkyl phosphines are chelating ligands. If something to the contrary is true, then a clear written description should be provided in the specification. Applicants have not pointed to any part of the specification, which clearly shows support for defining these alkyl phosphines as non-chelating ligands.

---

<sup>1</sup> (i.e. page 34 lines 23-24),

As to the ligands OAC, Cl and CH<sub>3</sub>CN applicants have failed to show where in the specification these ligands exist with metals other than palladium. Applicants must clearly show that at the time of filing this application, that these ligands were contemplated with the Group VIIIA metals.

Lastly, applicants have not pointed to where in the specification the phrase “one to four inclusive” is supported.

The rejection is being maintained

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 3-5 and 8-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. For reason see above response and previous office action.

***Conclusion***

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply

is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
